

# easialarm

## Multi alarming cable hard tag

The **easialarm** cable lock is an ideal solution for the protection of high value, high risk items such as handbags and leather jackets. Items are protected at 3 levels: The **easialarm** will alarm an EAS system if illicitly removed from a store and will also self alarm, making the tag ideal for use in enclosed shopping centre environments. In addition, the **easialarm** will self-alarm if the lanyard is cut in store. Detached using a conventional Magnetic Detacher, meaning no additional hardware should be required for use, the **easialarm** will provide a strong visual deterrent against theft and, once armed, will flash intermittently to identify that the item is protected.

## Features

- Maximum protection for high value goods
- Varying sizes of lanyards available to protect varying merchandise
- Loud, audible alarm on tamper (90db)
- Available in Grey (Black available by special order)
- Compatible with conventional Magnetic Detacher
- Low Battery Indicator
- 3-5 Year Battery Life
