

# easitag

The **easitag** combines a superior detection rate, with a lightweight highly secure design. Its patented curved ferrite design virtually eliminates the orientation weaknesses, ensuring maximum detection with RF or AM systems. The **easitag** also uses a high strength magnetic lock, making it hard to defeat. Its light weight design is ideal for protection of lightweight fabrics such as lingerie. In addition, its attractive design makes the easitag our best performing Hard Tag Solution.

## Features

- Highest detection rate – curved ferrite reduces orientation weaknesses
- One of the lightest and smallest EAS Tags available
- Reusable Tag made of fire retardant plastic
- Extra strength lock with encapsulated three ball locking mechanism
- Strong construction made of scratch and tamper resistant material
- Simple to attach and easily removed with a special detacher
